Do you think “ Modern Medicine” (Full of known & unknown syndromes) needs a “Face-lift”?

Accidents do happen, Medication intended to treat hypertension (Benicar) has been used successfully to treat many chronic infections including chronic Lyme Disease, Lupus, Rheumatoid Arthritis, Sarcoidosis, Psoriasis, Multiple Sclerosis, Chronic Fatigue Syndrome, Fybromyelgia, ADD, OCD and many more (35 Autoimmune diseases).

Excess Vitamin D could be the culprit in many of these illnesses.

“Lifelong supplementation of the food chain with vitamin D might well be contributing to the current epidemics of obesity and chronic diseases”. (Trevor Marshall, PhD).
